NEC DEXTRORSUM - NEC SINISTRORSUM

THE FOUNDER'S HYMN

We build our college on Thee, O Lord;
To Thee we bring our common need;
The loving heart, the helpful word,
The tender thought, the kindly deed
With these we pray
Thy spirit may
Enrich and bless our college always.

We work together in Thy sight,
We live together in Thy love;
Guide Thou our faltering steps aright;
And lift our thoughts to heaven above.
Dear Lord we pray
Thy spirit may
Be present in our college always.

Hold Thou each hand, to keep it just;
Touch Thou our lips, and make them pure,
If Thou art with us, Lord we must
Be faithful friends and comrades sure.
Dear Lord, we pray
Thy spirit may
Be present in our college always.

We change but Thou are still the same,
The same good Master, Teacher, Friend,
We change, but, Lord, we bear Thy name,
To journey with it to the end;
And so we pray
Thy spirit may
Be present in our college always.

ACADEMY ANTHEM

On, Straight on!
On, Cottonians, on!

Muster on the side of right,
March like warriors to the fight,
Mark the foe and strike with might,
Nec Dextrorsum, Nec Sinistrorsum.

On, Straight on!
On, Cottonians, on!

Keen alike in work and play,
Keen right through the hottest day,
Keen until your hair turns grey,
Nec Dextrorsum, Nec Sinistrorsum.

On, Straight on!
On, Cottonians, on!

See this motto on your scroll
Points you to a heavenly goal,
Seek it body, mind and soul,
Nec Dextrorsum, Nec Sinistrorsum.

21st December 2020

Dear Mr. Christopher,

It gives me great pleasure to send greetings from the Karnataka Central Diocese to the Annual Magazine. The magazine chronicles the programmes of the Academy and serves as a ready reckoner for all major events of the year.

I am indeed happy to note that the Academy has introduced new courses to cater to the changing educational needs of an increasingly competitive employment sector. Apart from imparting education it is gratifying to note that the students are involved in a host of extra-curricular activities that empower them to be responsible citizens. The need of the hour is well balanced young men and women to contribute their best to improve the quality of life in our society today and I am confident that they are receiving these qualities in the Academy.

May God continue lead the Academy as it enters another year of commitment to the cause of education and inculcating values to the students that enter its portals.

With best wishes,

Yours sincerely,

BISHOP

"To know others better, understand self-first ..."

I thank God Almighty for his grace and mercy showered upon the institution all along our journey in this mission of education.

The human mind is a highly complex and an interplay of imagination, thinking, understanding and being judgmental on aspects and contexts of human life.

Being always conscious and using intelligence to the requisite need would enable the intangible aspects of life to become more tangible and aspects of imagination, perception, thinking and memory to gain importance in life due to its reciprocation with human mind.

Mind envisages learning and the creation of human mind is the glorious workmanship of Almighty God that could not be deciphered by any and that has been able to save the human race from being deceived by another human to meet their selfish ends.

Ever to remain unearthed is the human mind and hence man would certainly dominate all the creations in the world except for being like God or to become God with his deeds and actions.

Education plays a vital role in the growth, development and way of life of people and in identifying a country's relevance in the world. It is evident that the education sector and the guidelines governing this sector plays an important role in determining the progress of a country.

Education policies to be implemented keeping in mind the need of the hour and the welfare of the nation. In a country as ours, it is imperative that the benefits of a progressive education policy reach the grass root level for strong nation building.

This is particularly vital, as the pandemic in the last Eleven months has opened our minds to think of positive solutions rather than the situation riding our lives with the grim situation still staring us in the face.

Bishop Cotton Academy magazine speaks volumes about the glorious achievements of the institution in an unbiased manner, purely based on merit and that has been our endeavor since inception. The magazine published annually, enshrines the essence of life at College.

The immense possibilities emerging in the present days offers us the opportunity to explore new vistas and tune in with the new paradigm of thinking. The magazine continues to reminisce the glorious past with a firm focus on a brighter future.

I must express my heartfelt appreciation to the students and teachers involved in the herculean task of putting together the magazine in such a professional and exemplary manner.

It requires commitment, dedication, and selflessness of a very high order and deserves special mention. This year the work has been more arduous and challenging for the editorial team, what with the pandemic related work restrictions but they have made me proud with the seamless flow of work.

I want you to understand and appreciate these efforts as you read the magazine that endeavors to enter new frontiers of creativity every year while zealously capturing the events of another fascinating academic year.

I place on record, my sincere thanks, to our beloved Chairman and Bishop Rt. Rev. Dr. P K Samuel, the members of the Board of Management and my dear learned colleagues for their relentless, selfless support and guidance rendered towards our endeavors.

Enjoy reading and work towards bringing a positive change.

REVEREND'S MESSAGE

Nurturing creativity and inspiring innovation are two of the key elements of a successful education, and a college magazine is the perfect amalgamation of both. Hence, I am delighted to know that Bishop Cotton Academy Magazine 2019-20 is ready for publication.

I take this opportunity to congratulate the editorial board for bringing out this magazine as per schedule, which in itself is an achievement considering the effort and time required.

May all our students soar high in uncharted skies and bring glory to the world and their profession with the wings of education. May the Grace of Jesus Christ be with each and every one of this institution.

PRINCIPAL'S MESSAGE

It is my pleasure to present the collection of memories and accomplishments of our Academy during the academic year 2019-20. In spite of so many hurdles, including COVID-19 attack, our students and staff stood together to make the academics and extra-curricular activities flow in an optimistic pace.

Relatively, we took the Academy and PU College to a greater height by improving the infrastructure and other facilities. We met the demand of online classes in an effective way to ensure that students do not miss out on education. The new Auditorium and the National Level Conference are the feathers to our cap this year. Placements were fairly good. Many students excelled in the field of Sports in State and National level. Semester results of the year were commendable too. The content of this magazine reflects how we, the students and staff, have gradually moved upward in all spheres.

Our heartfelt gratitude goes to the Chairman and Bishop Rt. Rev Dr. P. K. Samuel and the members of the Board of Management, for their constant encouragement and involvement. The economic support from Bishop Cotton Boys' School is acknowledged, it plays a major role in imparting education, with high standards, within a reasonable fee structure, to students in and around Yelahanka. We assure you that constant efforts are taken to mould the students to become successful individuals, to meet the growing demands of the society.

OUTREACH 2019

**“Whatsoever you do to the least of my people, you do it unto me.”
(Mathew 25: 40)**

This verse from the scripture reminds us of our social responsibility. Keeping this in mind, Outreach Programme was arranged for students in November 2019. Through Outreach Programme, students are made aware of the sufferings of the poor, marginalised and underprivileged sections of the society.

We visited two places – Vidya Gokula Charitable Trust on 8th November 2019, and Arpana School for Physically and Mentally Challenged on 11th November 2019, to complete our Outreach Programme.

'Arpana School for Physically and Mentally Challenged' caters to the creative talent of specially-abled children, they are taught to make greeting cards, candles, artificial flowers etc., hence we contributed various craft materials to encourage them.

Essentials like blankets, groceries, over-the-counter medicines, etc. were donated to 'Vidya Gokula Charitable Trust'; students and staff contributed for the same. Some of the staff visited the place to hand-over the materials.

Visit to both these places made us to realise how much more we could contribute to the society, and also made us thankful for the blessings in our lives. Students were also touched, and expressed their gratitude to the College and Management.

CAREER GUIDANCE PROGRAMMES

PLACEMENT CELL

Students have a lot of decisions to make while they are still in college. These range from which courses to take up apart from their core subjects, to deciding which internships would benefit their career. However, the single biggest decision that any college student needs to make revolves around what to do after college. As a matter of fact, almost every other choice that a student makes in college revolves around his/her plans after college, be it studying further or taking up a job.

To ensure this, the Placement Cell of BCAPM took the initiative to meet students of a few colleges, and counsel them on deciding what to do after college, which plays a significant role in their future, as well as, long term goals.

Hence, Career Guidance Programmes were held at different colleges in Bengaluru - 26th September 2019 at Yelahanka Government College, 11th November 2019 at Bagalur Government College, 5th December 2019 at Ayyappa College, 10th December 2019 at Government ITI College, Doddaballapur, 12th December 2019 at Nagachaitanya PU College, and 13th December 2019 at Jalappa ITI College.

Students were enthusiastic, and actively participated in these programmes. It was a good opportunity for us to guide these young minds towards newer and greater possibilities.

CHARIS - 2019

Our annual family get-together is organised during Christmas season every year. This year we named it 'CHARIS'; Charis in Greek means 'Grace', and truly God's Grace has led our institution to where we are today.

Charis 2019 was held on 13th December, 2019, it was a time to acknowledge every gift the Almighty has bestowed on us. The occasion was graced by Rt. Rev. Dr. Prasanna Kumar Samuel, Bishop - Karnataka Central Diocese, CSI, and members of the Board of Management.

After opening prayer by Prof. Rabi Puthran, EXODUS Worship Team led us with praise and worship, and welcomed the Christmas season with carols.

Christmas greetings were delivered by Bishop Rt. Rev. P. K. Samuel. He spoke about Grace as God's unmerited favour on mankind. With a simple analogy, he taught us that we all have a purpose to fulfil – 3 trees in the forest were chopped down; soon, one tree ended up in a palace, one became a dining table in a grand mansion, and the third one eventually became a trough in the manger, where Christ was born. We often have questions in life and don't seem to find answers, but we are all here to serve a purpose and we must trust in the unfailing love of God.

The birth, crucifixion and resurrection of Jesus is what redeemed us of our sins, and this season is a reminder that every one of us have been saved by the Grace of God and the gift of Salvation.

This day was even more special with the release of our 3rd Annual Magazine. Bishop, along with Mr. Devadas Sadhu, Treasurer – BCAPM, blessed and released the magazine. The Editorial team, and printer, Mr. Vinay, Proprietor, Durga Printers, were felicitated by Bishop and Prof. Sam Martin Christopher, our Principal. Copies of the magazine were distributed to Board Members and Guests.

Gifting one another is an age-old tradition that proclaims love and joy. And Christmas is the season we must forget all our differences and express our love and appreciation towards our friends. Hence, like every year we gave gifts to staff members of other faiths, as a symbol of Christ's love.

Santa Claus visit was a great surprise for the kids as they were given gifts.

The programme ended with Prayer and Benediction by Bishop. All staff members and their families were treated to a sumptuous fellowship dinner. It was a memorable evening for everyone.

THANKSGIVING & GRADUATION CEREMONY - 2020

Thanksgiving and Graduation Ceremony was held on Tuesday, the 22nd of December 2020. Even during these challenging pandemic times, God showered his blessings upon us, with the construction of the new Auditorium. On this day, the Auditorium was dedicated and the commemorative plaque was unveiled.

The Ceremony started with prayer by Rev. Noah Vasanth Kumar, Bible reading and customary lighting of the lamp by dignitaries.

Chief Guest for the day was our chairman and Bishop, Rt. Rev. Dr. Prasana Kumar Samuel. Other guests were Prof. Esther Prasanna Kumar, Rev. Christy Rajkumar, Mr. Abraham Ebenezer, Mr. Devadas Sadhu, Rev. George Jayaprabhu, Mr. Aldren, Rev. Paul Dhinakaran, members of the Board of Management and Principals of other KCD Institutions.

Annual Report for the year 2019 -20 was presented by Sanskriti Vishal Gaonkar of final year BBA.

Our Chairman and Bishop blessed the graduands and motivated them with his speech. He spoke about the celebration of love, generosity, brotherhood and security. He urged us to examine ourselves with these questions: What do we seek? Where do we look? What can we give? The story he shared was indeed thought-provoking, it was a story about a son sending expensive gifts to his parents, instead of himself visiting them which would have been more precious to them. Whereas, Jesus himself came down to earth, to die for us, and give us the gift of Salvation.

In representing Christ's love to our colleagues, gifts were given to staff of other faiths. To ring in the spirit of Christmas "The Laudant Choir" from Kotthanur CSI Church led us with Worship; the Choir consisted of 25 members.

It was apt for us to recognise the hard work of the architect and construction team for their tireless contribution in building the new auditorium in such a short span of time. Mr. Sai Sesha, Architect, S.D.S Architects and Consultants and Mr. Raghavendra, Fabricator, were honoured by our Bishop.

The outgoing students of Degree and Pre-University took an Oath to be true to the values of their Alma Mater. Members of the student council 2019-20, laid down the office by handing over the College flag to our principal, Prof. Sam Martin Christopher. Subject toppers and Centum achievers were felicitated.

Prestigious awards such as Academic Excellence and Best Outgoing Student Award were given to the deserving students:

Best Outgoing Student 2019-20
Pre-University - Siddharth Suraj
Degree - Sanskriti Vishal Gaonkar – BBA

Academic Excellence 2019-20
Commerce - Veenasree N.
Management - Sanskriti Vishal Gaonkar
Computer Applications - Girija B.

The programme concluded with Candle Lighting Ceremony while the Laudant Choir sang 'Carry your Candle'.

In this Christmas season we share our Season's Greetings and wish a bright future for our graduands.

HOPE FOR LIFE

(Excerpts from the Holy Bible)

Life is like mist,
Appears just a day and disappears tomorrow,
All that we are can quickly fade away, replaced with
tears and sorrows.

It is unpredictable.
Though one day we may pass away
Still we will never be forsaken.
All those who are dead-asleep,
Will be in God's mem'ry
From death he will awaken.
Then we'll come to see all that life can be, paradise
eternally.

So, always have faith and do not wonder,
For our almighty can make us stand and we will live
forever.

**TWO LINES – PARALLEL & INTERSECTING
WHAT'S YOUR CHOICE?**

Once two young amateur photographers named Peter and McKinnon started going through their archive of old projects they worked on, Peter did this because he wanted to relive the moment and to pride himself that he is the best at his work. But McKinnon did this because he believed that we all started somewhere.

When we look at the work of great artists in history, it is easy to say 'I can never accomplish that level of work' but we often forget they also once stood in our shoes when they first started.

Both Peter and McKinnon had 2 different ways of motivation, their goal was the same, to be great filmmakers.

Their journey to becoming an artist began in 2010, when both started their freshman year at a charter film school. For four years, they attended G-Star School of Arts, where their passions for photography and filmmaking were ignited. A few days later, both made their first short film. After completing the project, the teacher had come over to them and said:

"Hey, you kids got a good eye. You should consider doing this as your profession. I think you've got a future in it."

After hearing that, it clicked. Peter was flying high with pride, whereas McKinnon had fallen in love with the process of creating something with the camera.

From that point on, both decided that they wanted to do interesting work with their camera for the rest of their lives. Then, in the second week of school, both emptied their bank accounts and bought themselves their first camera.

Peter bought a Canon I DX MARK II, which is one of the high end cameras in the industry; whereas, McKinnon purchased Canon 1500D which is cheaper and had a lower picture quality.

In the final year of film school, both Peter and McKinnon were offered 2 different short films in which they had to work individually. Peter believed that he could do it all alone because he believed he was the best. But, McKinnon was happy that he got to live his dreams and explore himself in the field of photography.

Peter showed less interest in his short film because he thought the project was a waste of his time and skills. He completed his project in a week and never bothered about the review as he was blindfolded by his pride and ego.

As for McKinnon, he was happy and nervous that he had got a chance to prove himself. When he started shooting, he would constantly ask himself:

"If nobody saw my work, would I still keep working on it?"

And the answer was always a resounding "Yes".

Four weeks of shooting daily, failing countless times, and sleepless nights embracing his passion before anybody really saw his work, he had finally completed his project.

Both the short-films, along with others, were submitted to the Film Council to be reviewed. At Amy Film Festival, Peter's movie was disregarded as it was lifeless and had no moral value to it.

As for McKinnon, he garnered 3 Gold medals at the National level and was invited to an exhibition and ceremony at Carnegie Hall to join the council of filmmakers. McKinnon was in awe when he heard it. Still shocked, a few moments later, the director of the organisation pulled out the May 29 issue of The New York Times, McKinnon was in utter disbelief... his movie poster had made the front page in The New York Times!!!

What we take from this is that pride can give us confidence but there is a high chance of falling in the pits of ego, as Pride and Success are two parallel lines, they never meet.

Instead if we are passionate about our work and are willing to learn from our mistakes, it will definitely put us on the path to success. Hard work, passion, perseverance may not yield quick results, but you will definitely see success at some point during your journey.

दहेज प्रथा (एक बुराई)

कितनी गीता गंगा मैया की गोदी में सो जाती है,
कितनी सीता रेल की पटरियों पर लहू बो जाती है,
कौन कुएँ में कूद गई , गिरी कौन मिनारों से,
कौन गिनेगा इनकी संख्या रोज रंगे अखबारों से,
धर्म बेचने वालों तुम, शर्म बेचने वालों तुम ,
फिर क्यों ज़िंदा करते हो,
मरे हुए चंगेज को,
सोने की हतकड़िया काटो,
मारो दुष्ट दहेज को.....।

मेरी माँ

ज़िन्दगी अधूरी तुझ बिन,
ये दिन भी अधूरा है,
अधूरी हैं शाम तुझ बिन,
अधूरा मेरा सवेरा है।

तेरे होने से ही हैं सब कुछ,
तेरा ही तो हैं ये जीवन जो मेरा है,
हर सफलता अधूरी तुझ बिन,
तुझ बिन सब ओर अंधेरा है।

तेरे आँचल की छांव में,
मिलता सुकून घनेरा है,
सर पे तेरा हाथ रहे तो,
खुशियों का वही बसेरा है।

तेरी ममता के बादल ने ,
जब-जब मुझको घेरा है,
खुशियों की बारिश जीवन में,
हर रोज नया सवेरा है।

माँ मेरी सफलता के पीछे,
तेरे प्यार का पहरा है,
मत जाना कभी छोड़ मुझे तू
तुझ से ही ये जीवन मेरा हैं।

PHYSICAL FITNESS ITS IMPACT ON YOUNGER GENERATION

Physical fitness is a state of health and well-being and more specifically, the ability to perform aspects of sports, occupations and daily activities. Physical fitness is generally achieved through proper nutrition, moderate – vigorous physical exercise and sufficient rest.

Physical activities are vital for the younger generation's development and lay the foundation for a healthy and active lifestyle. Physical activities not only provide health benefits, it provides learning experiences that link to the younger generation's interests, abilities and identity. Youths who are physically fit can sleep better, and are able to handle physical and emotional challenges better, which helps in areas such as studying for an exam, coping with stress and being more resilient. Youths who are active will have:

- stronger muscles and bones
- lower tendency to become over weight
- lower risk of developing Type 2 Diabetes
- lower blood pressure and blood cholesterol levels
- improved posture and balance
- better physical and mental strength
- improved concentration and thinking strength
- overall better outlook of life

A dance class or soccer practice, riding bikes or playing tag does count as physical exercise but just how much exercise should the younger generation get? Young lads should exercise for two hours or more every day. This does not have to be all in one go; it can be spread out the entire day. You can stretch in the morning (flexibility), ride your bike to school (Aerobic) and walk with your family after dinner. So get up and move! Don't sit still for more than an hour at a time. After an hour get up and move for 10 minutes, your body will thank you.

Morning Exercise:

One of the most common reasons people don't do as much Exercise as they should is because they say don't have time, and let's face it, after 8+hours at work, who wants to workout instead of spending time with the family. But, if you do make that effort, here are the benefits:

- A morning workout enhances your metabolism. You will burn more calories as the day goes on as you will have an increased breathing rate and higher heart rate and the body will burn energy to actively bring them back to resting rate throughout the day.
- It will improve training consistency and create good habits, if you get up early and exercise before your day has started you are less likely to have interruptions that are going to disturb your training schedule.
- A morning exercise routine will kick start your day and give you a good sense of fatigue, so by the time you are ready for bed at night your sleep quality will be improved.
- Morning exercise can be more effective than having a cup of coffee when you wake up. When you wake up and get moving, studies have shown that your physical and mental energy will be improved.

MAKE RESOLUTIONS FOR THE YEAR:

1. Set SMART Goals

- a. Specific: decide on how much you'd like to lose, or how much you'd like to bench press instead of increase strength
- b. Measureable: you must have a metric to be able to easily know whether you have achieved the goal or not at the end of the year
- c. Achievable: Can you do it with your time ,knowledge and resources
- d. Relevant: does the goal align with overall personal goals ,values and beliefs
- e. Time based: set a realistic time frame

2. Start with WHY

What is the deeper compelling reason as to why you want to achieve THAT particular goal, out of anything you could have chosen? Remind yourself of why you started to help yourself through challenges.

As Friedrich Nietzsche said, “He who has a WHY to live can bear almost any HOW”.

3. Get the right people on the bus

Build your own support network of like minded people who you know will support you and your goals, keep you accountable and challenge you when needed.

4. Start with Small Successes

Great Pyramid of Giza wasn't built overnight. Break down your goals into smaller stepping stones and build your self-esteem, self-discipline and momentum by laying one brick at a time, which in turn will lead to huge successes later in the year.

5. Build Self-Awareness

Take time to reflect on how your goals are going, this will allow you to catch yourself when you are starting to lay blame, deny and give excuse for why you aren't getting the results you want. Another big one is to be able to be aware of when you're falling into relapse that is slipping into bad habits again. This may call for a change in goal, exercise, foods, of influence, environment, etc.

MOTIVATIONAL QUOTES:

1. “Your health account, your bank account they are the same thing. The more you put in the more you can take out .Exercise is king, Nutrition is queen. Together you have kingdom.” - Jack Lalanne
2. “....cause if you ain't pissed off for greatness, that just means you're OK with being mediocre.” – Ray Lewis
3. “If something stands between you and your success, MOVE IT! Never be denied.” – Dwayne 'The Rock' Johnson
4. “Change your life today. Don't gamble on the future, act now, without delay.” - Simone de Beauvoir
5. “One way to keep momentum going is to have constantly greater goals.” - Michael Korda

Health and fitness is the real wealth a person should acquire to lead a peaceful and harmonious life. A person without both, may face many difficulties and find their

money spent on their health issues Health and fitness are not only about physical appearance or muscle, but it is also about being internally, mentally and emotionally fit that will largely influence your day to day life. In earlier days, our elders took good care of their health and fitness through healthy food and by leading a better lifestyle. The younger generation has been more ignorant of their health and fitness, but the situation is changing. Better awareness about the importance of health and fitness has made everyone cautious, and has got them to working on this problem and finding ways to stay healthier. The first step towards fitness is keeping yourself calm and relaxed. This will help you in being both mentally and bodily fit to some extent. Exercises and other forms of workouts like dancing, yoga, etc., are the best ways to keep yourself fit and these practices will also, in turn, help you to be calm and composed.

Health and fitness play a major role in keeping you and the people around you happy as well as healthy. Avoid those bad habits that will not only ruin your body and mind but also influence badly on those around you. Health and fitness can be maintained through regular workouts, healthier food, and other healthier habits.

PHYSICAL FITNESS DURING GLOBAL CRISIS

The closure of educational institutions around the world due to the pandemic has also impacted the sports education sector, private education sectors, sports organisations and athletes, business communities, teachers, scholars and coaches, parents and mostly young learners. While this community has been severely impacted by the current crisis, it can also be a key contributor in solutions to contain and overcome it, as well as in promoting rights and values in times of social distancing; as the world begins to recover there will be significant issues to be addressed to ensure the safety of sporting events at all levels and the well-being of the sports organizations.

Global recommendations are all adults must accumulate at least - 150 Minutes of moderate – intensity or 75 minutes of vigorous-intensity physical activity per week, the benefits of such periodic exercise are proven very helpful, especially in times of anxiety, crisis and fear. There are concerns therefore that in the context of the pandemic, lack of access to regular sporting or exercise routines may result in challenges to the immune system, physical health, including exacerbating of existing diseases that have their roots in a sedentary lifestyle.

Any activity is better than none, and more activity provides more physical and mental health benefits.

Staying physically active during self-isolation

How much?

World Health Organisation recommendations for physical activity are:

150 minutes of moderate-intensity,
or **75 minutes of vigorous exercise,** per week.

Muscle-strengthening exercises **two or more days**
per week.

And how I do that?

1 Sit less!

Take breaks from continuously sitting in front of your computer, tablet or smartphone **every 20-30 minutes.** Take a 1-2 minute walk around the house or play with a pet!

Try to alternate between sitting and standing, where possible, by creating a standing desk area.

2 Make stairs your new best friend

Stair climbing is an extremely time-efficient way to maintain fitness and **as little as three 20-second fast stair-climbs a day** can improve fitness in only 6 weeks.

3 Maintain strength using your own bodyweight

Research shows that bodyweight home-based strength exercises such as **press-ups, sit-ups, and planks** are as important for health as aerobic exercise.

Aim for at least **a couple of bodyweight sessions per week:**

- 2-4 sets of 8-15 repetitions of each exercise
- 2-3 minutes rest between sets.

4 Dance the COVID-19 blues away!

Dancing is an excellent way to protect the heart and maintain fitness – it can easily reach **moderate** and even **vigorous intensity exercise**, while **releasing endorphins** to help you get through the lonely days.

5 Give pets and kids more playtime than they've ever had!

It's a good opportunity to bond more with the little 2 and 4 legged members of your family through active play.

Both kids and dogs will welcome more one-on-one time with you and you'll increase the amount of exercise you get by allocating time to keep them busy.

The end goal during self-Isolation is to prevent long term physical and mental health damage by sitting less, moving as often as possible, and aiming to maintain fitness by sweating it out every day.

RECENT TRENDS IN DIGITAL TRANSACTIONS ACROSS INDIA

An Abstract

Cashless payments are replacing the traditional system of payments made for decades in India, growing faster than in other countries around the world. The shift has attracted a host of tech companies, backed by foreign investors, battling for market share. India's push to build a less-cash economy or in other words a cashless economy seems to be gathering momentum with the central bank, recording a phenomenal growth in digital transactions till March 2019, and setting an ambitious target to push up the volumes by four times by 2021. India has many of the attributes that tend to propel growth in digital payments. It has a large population with in-depth mobile phone penetration. A large part of the population isn't well served by existing banking services. Initially people were using digital transaction to some extent in retail shops with the help of debit card and the point of sales machines, but now it has entered into every transaction carried out between the many stake holders of the business, like suppliers, retailers, transporters, employees, advertisers, government etc.

Digital transaction has reached a high level of penetration into the micro, small and medium industrial sectors. Today with the availability of smart phone and high speed Internet connectivity the Digital transactions are dominated by Digital wallets with the support of unified payment interface across the country, which has helped to a great extent in achieving the ambitious target of the government in order to convert India into a cashless economy.

Keywords: digital transaction, cashless, online payments, digital wallets.

THE PANDEMIC AGE

History tells us of various Golden ages.
This century we got to see the Pandemic Age.
It is believed to have started in a place neighbouring our country.
Though it started in a small way, no one expected it to explode to such a large extent.
What did we gain and what did we lose?
Realising the true values of human life is the greatest asset
We could proudly claim we learnt to cleanse ourselves.
Hygiene was there but we began to adapt it in a new 'avataar'.
Distant horizon is a splendid spectacle
But now it has dawned on us that social distance
Is the magnificent destination for all of us.
We never thought that we would go to a bank to draw money
Wearing a mask
Overall, the pandemic age taught us a lot
To be at home with our family
To work from home and at home
To eat at home and home only
No visitors allowed and no visits to any place
No pilgrimages of any kind
House is temple, worship at home
A craze called Shopping is no more
Entertainment went for a swing to a place we will never know
Businesses crashed and industries perished
Economy took a major dent among all
Precious lives were lost
And many a credible ones too
Now that the vaccines are found
Let us rebuild, restart our lives in the new normal
Sending the miseries of this pandemic age
To the pages of history for posterity
Cautioning the coming generations
In case of any such eventuality
2020 will surely go down in our memories
As a year seen, heard, and lived to its fullest extent.

COMMITMENT AS A TEACHER

“Mother gives birth, a teacher gives life.”

-Prime Minister Shri. Narendra Modi

Teaching is the greatest act of optimism, teacher is the one who ignites the mind of the learners and brings out the hidden talents in them. Though there is a saying “school is the first home and a mother is the first teacher”, teachers play a very important role in shaping pupils future, bringing out the hidden talent in them and striving for a pupil's all-round development. As a teacher, one should be in love of three things - “love of learning, love of learner and love of bringing the first two loves together”.

It is said that when Dr. Sarvepalli Radhakrishnan became the President of India his students and friends wished to celebrate his Birthday but he requested them that it would be a proud privilege if September 5th is observed as “Teachers' Day” According to him it is the teacher who helps us to think ourselves. Yes! As a teacher we should be committed to our work, we should be confident, one should be conscious that we are responsible in shaping pupils future, we should set an example to them by our conduct, treatment of all the pupils equally irrespective of caste, religion and language. We should use different methodologies of teaching to make the pupil understand the subject, place the learner first and then the rest. We should get updated about our knowledge in the subject, help pupils to develop the act of enquiry, innovate with motivational talks and effective teaching, we should not only spread the act of nobility but help every pupil to have a taste of success in life, celebrate life and face life with confidence in midst of tantrums, after all, today's child is tomorrow's future.

Thus, as APJ Abdul Kalam said “Teaching is a very noble profession that shapes the character, caliber, and future of an individual. If people remember me as a good teacher, that will be the biggest honour for me.” Therefore, a teacher's life is not said to be successful based on the achievements but it is based on the difference that is made in each individual's life and their growth.

समय का पहिया

कोरोना काल ये ऐसा आया ,
 बदल गया सब हाल ।
 हाल चल सब बदल गया ,
 अब बदल गया संसार ।
 घर से बाहर आते ही ,
 हाय-हेलो सब बदल गया ।
 अब है दो गज्ज की दूरी और नमस्कार,
 अब बदल गया संसार ।
 मानव जाती ने लालचवश प्रकृति से किया खिलवाड़ ,
 जल-वायु न स्वच्छ रहा और प्रकृति का हुआ अपमान ।
 अब जब हम बहार जाते हैं , खुद को पाते हैं लाचार ,
 न हवा स्वच्छ-न नीर स्वच्छ , स्वयं ही है इसके आधार ।
 समय का पहिया घूम गया ,
 अब आया कोरोना काल ।
 मानव जीवन न रहा पूर्व सा ,
 अब बदल गया संसार ।
 कोरोना काल ने हमको बहुत कुछ है सिखलाया ,
 जीने का रंग-ढंग बदल गया , तौर-तरीके बदल गये ।
 किंतु अवसर मिला हमे अब , हमने सीखे तकनीकी के चलन नए ,
 अब बदल गया संसार ,
 इस भीड़-भाड़ की दुनिया में मुझे मिली रेबेका सुजन ।
 ऊपर से दिखती सख्त मिजाज़ ,
 जब भी देखा उसे , मेरे मन ने मुझको भरमाया ,
 लेकिन मेरे अंतर मन ने , उसके अंतर मन को पहचाना ।
 जब उसकी सरसता को मैंने पहचाना ,
 तब लगा आज भी दुनिया में अच्छे लोगो की कमी नहीं ।
 यह धरती है माया नगरी पर अच्छे कर्म जीवन का आधार ।
 समय का पहिया फिर घूमेगा , आएगा नया सवेरा ,
 हम सब फिर मिलकर बनायेंगे एक नया सुन्दर संसार ।

सपनों सा संसार

सपनों सा संसार बनाया तूने ओ विधाता ,
 हम सबको जीना सिखलाया तूने ओ विधाता ।
 फूल दिए तो संग कांटे भी तूने ओ विधाता ,
 फूलों ने हँसना सिखलाया , काँटों ने जीना सिखलाया ।
 फूल मिलें जब जीवन में तो खुशियाँ भरी विधाता ,
 काँटें मिलें जब जीवन में तो दर्द का एहसास जगाया ।
 न जाने क्यों दुनिया में ये तेरा मेरा आया ,
 सब होते जब एक सामान तो फूल हो फूल मुस्काया ।
 जीवन में गर हमने सीखी होती ये माया ओ विधाता ,
 तो सुख और दुःख दोनों को होता संग-संग अपनाया ।
 ईश्वर ने ये धरती अम्बर सबके लिए बनाया ,
 पर मानव के तेरे-मेरे ने अहंकार जगाया ।
 काश ये धरती ऐसी होती ओ विधाता ,
 फूल की तरह सब हँसते रहते ओ विधाता ।
 तेरा-मेरा का ताना-बाना न होता ओ विधाता ,
 फूलों से हम हसना सीखते काँटों को भी होता अपनाया ।
 काश ये दुनिया के लोगों ने होता एहसास जगाया ,
 सही गलत का फर्क कर जीना होता हमको सिखलाया ,
 अंतर बस इतना ही है की हमने सुख दुःख को होता साथ-साथ अपनाया ॥
